A WONDER WORKSHOP WITH PETER MERRETT

Be The Voice

Welcome to an encouraging learning experience to help you plan, prepare and perform your next presentation, pitch or online recording - and bring your voice to life.

How frequently do you sit through underwhelming and uninspiring presentations? The common cause is the lack of time that the speaker has put into their planning and preparation. Or that nerves get in the way and low confidence holds them back from authentically connecting with their audience.

Do you have an important presentation coming up that could benefit from some refreshing support? Would you like to engage your audience and build your confidence in the spotlight? Or do you simply desire to create a deeper connection in your next business meeting?

ATTENDEES WILL ENJOY DISCOVERING HOW TO:

- ★ Map out and prepare audience engagement and connection.
- ★ Structure your content and prepare a memorable opening and closing.
- ★ Practice vocal pace, volume, tonality, pausing and body language.
- ★ Warm-up and breathing techniques to embrace your nerves.

This is a workshop filled with reassuring guidance. With impactful tips and tricks that Peter has learned from performing in 11 countries, as a Professional Speaker.

HOW THE WORKSHOP IS RUN

Be the Voice is a fully customised programme, that can be delivered as a group workshop or as a one-to-one coaching experience.

WORKSHOP DESIGN AND DELIVERY STYLE

Peter's workshops are immersive, refreshing and emotionally connecting. His top focus is to give his audience an impactful and memorable experience that lives on way past the event day.

LOVE

Every workshop is a work of love and heart. Performed with playful and engaging interaction - to provide renewed focus, reconnection, and inspiration.

CONNECTION

From a group of ten to several hundred, Peter creates a welcoming, inviting and interactive environment, like being together around a campfire.

MEANING

A distinct difference with his delivery – he never talks 'to' only 'with' his audience. Peter uses props and other visual effects, to create a visual and highly engaging experience.
